

## **Fire**

Lyrics by Scott Glenen ©2014

### **Verse 1**

(Bryne)

Jaded John sleeps in his car  
Made a lot of bad choices  
Now his wife and kids are gone  
He drinks his bottle of wine  
Cries with the gypsies in his mind:  
“Wonder what the world might bring?  
Wonder do you hurt like me?”

### **Verse 2**

(Mark)

Spare change sits on the corner  
His home a shelter of cardboard  
His eyes defy the smile on his face  
Wishes you a great day  
As you pass him by  
He will be here tomorrow  
Maybe then you can spare him a dime?

### **Chorus**

(Bryne & Amanda)

Cold and alone  
Wind in their face  
They stand afraid  
Now's the time  
We have to change  
Build a fire and let it blaze a new way  
Melt our hardened hearts and  
Be the love they need today  
Build a fire and let it blaze a new way

### **Verse 3**

(Amanda)

Lovely Lucy, what went wrong?  
Used to be such a bright girl  
'Till the delusions got a hold of her  
Now she wanders the neighborhood  
Searching garbage

Finding treasure  
Her shopping cart is full  
She laughs more than we know

### **Chorus**

(Bryne, Mark & Amanda)

Cold and alone  
Wind in their face  
They stand afraid  
Now's the time  
We have to change  
Build a fire and let it blaze a new way  
Melt our hardened hearts and  
Be the love they need today  
Build a fire and let it blaze a new way

### **Verse 4**

(Bryne & Caroline)

There's mister ego  
Talking to the eagles  
What does he really know?  
Stepped on a lot of people  
To get so high  
Is this the face of freedom?  
But you're not really free  
Are ya?

### **Chorus**

(Bryne, Mark, Amanda, Caroline)

Cold and alone  
Wind in their face  
They stand afraid  
Now's the time  
We have to change  
Build a fire and let it blaze a new way  
Melt our hardened hearts and  
Be the love they need today  
Build a fire and let it blaze a new way
